

# Metrowest Aging and Disability Resource Consortium

## MISSION STATEMENT

The mission of the MWADRC is to create and sustain a **“No Wrong Door”** virtual partnership to assist elders and individuals with disabilities in their efforts to live independently.

The MWADRC promotes independence and choice and strives for a coordinated system for information and access for all persons seeking long term supports. In this manner, our mission is to minimize fragmentation and confusion for consumers.

Empowering individuals to make informed decisions about their long-term care support options and supporting individuals at high-risk of nursing home placement in their efforts to live in community settings are at the core of the MWADRC’s efforts.
